MyChart

View your After Visit Summary and more
online at [https://
mychart.utmedicinesa.com/mychart/](https://mychart.utmedicinesa.com/mychart/).

We at UT Health San Antonio believe it is important that you have access to your test results in MyChart as soon as they are available. If you elect to immediately view these results, you may see reports which contain serious or confusing information even before your doctor reviews them. Many patients choose to wait until their doctor reviews new results and can explain the meaning. Others choose to view their results right away. The choice is yours, and we're here to answer any questions you may have.

COVID-19 Vaccine Facts

Did you know COVID-19 vaccines are highly effective in preventing illness?

Yes, they are even more effective than the annual flu vaccine. Here are more facts:

- The quickest way for life to return to normal is for most people to get vaccinated.
- Nearly all doctors who have been offered the vaccine have taken it.
- Millions of people have been vaccinated safely.
- Tens of thousands of people participated in the trials for the three authorized vaccines. After being fully vaccinated, no trial participants were hospitalized or died from COVID-19.

Did you already receive your COVID-19 vaccine?

- Let us know! We will update your medical record.

Want to get your COVID-19 vaccine?

- Excellent! We can help you get your COVID-19 vaccine today

Do you have questions about the COVID-19 vaccine?

- We're here to help. Ask us all the questions you have about COVID-19 vaccines.

Additional Information

It has been a pleasure caring for you today at Mays Cancer Center!

How to contact us:

If you have any questions or concerns following today's visit, you may message us through MyChart. If you are not a MyChart user, call us at 210-450-2872. Our office hours are Monday-Friday 8 am to 5 pm. This same number is used for questions after-hours and on weekends or holidays that cannot wait until our office opens.

Results:

Most lab results are made available to you in your MyChart patient portal within 2 weeks of collection. If you do not see your results in MyChart within 2 weeks or are not a MyChart user, please feel free to contact our office.

Medications:

Please bring to your appointment a list of all of the medications you are currently taking (including as needed medications, over the counter medications, medicinal creams/ointments, and herbals or supplements) along with their doses.

We noticed that you don't have an advance directive or living will in your medical records with Mays Cancer Center. An advance directive only takes effect when you are unable to make your own decisions regarding your health care.

If you already have an advance directive, please share a copy with us to keep in your medical record. If you would like to learn more, or are interested in obtaining an advance directive or living will, please visit:

Additional Information (continued)

<https://hhs.texas.gov/laws-regulations/forms/miscellaneous/form-livingwill-directive-physicians-family-or-surrogates>

In Texas, an advance directive can be composed of up to four documents:

- 1) Directive to the Physician - states what life sustaining treatment you would want in the case of a terminal condition.
- 2) Medical Power of Attorney - names one or more persons who can legally make your health care decisions.
- 3) Out-of-Hospital "Do Not Resuscitate" (DNR) Order - A DNR order indicates a person does not wish to undergo life sustaining treatment in the event of cardiac or respiratory arrest.
- 4) Directive for Mental Health Treatment - states what mental health treatments you would not want if unable to make your own decisions.

Patient Survey

We want your feedback!

Soon after your appointment, you will receive a text or email asking you to take a five-minute survey about your visit. Please take the time to complete this survey. It helps us understand what we do well and what we can do better for our patients.

The survey is sent from UT Health Physicians by a company called Press Ganey, the national leader in measuring patient experiences. The text or email you receive will ask you to click on a website link to begin the survey. First, you will need to enter your birth date to confirm your identity. Then, you may continue to complete the survey.

We truly appreciate your participation. Thank you for choosing UT Health!
